ABOUT PLAAS

Plaas is a versatile Mechanical Piping Contractor that has four decades of experience in design, fabrication and welding for new construction and industrial maintenance. Plaas employs Millwrights, High Pressure Piping Licensed Staff, Confined Space Rescue Teams, Certified Welders and Certified Welding Inspectors, all dedicated to efficiently and safely delivering scheduled and emergency services. Plaas' Project Managers are experienced at completing big and small projects within USDA, FDA, OSHA and GMP Standards, on time, within budget and always with the highest regard for safety. Plaas Incorporated Industrial Services has facilities in Red Wing, MN and Wiggins, MS.

ABOUT FRED PLAAS

Fred Plaas started Plaas Incorporated in his hometown of Red Wing, MN in 1974. Fred and his wife Beckie built Plaas into a successful local plumbing and heating business and then gradually developed a diverse team, delivering a variety of mechanical contracting services. Fred maintains many licenses nationwide and he always enjoys his time on his industrial equipment. Joining Fred and Beckie at Plaas are sons Taite and Kailen and over #100 staff nationwide all proudly delivering the Plaas brand of efficient and safe service.

PLAAS MISSION

To provide safe, high quality, and competitive construction and maintenance services, delivered in a timely manner to the North American Industrial Marketplace.

SAFETY

Plaas is committed to the safety and health of all our employees and our client's employees. We recognize the need to comply with any and all regulations governing injury, accident prevention and employee safety. Safety is the top priority at Plaas. Copies of our ISNetworld and EMR ratings are available upon request.

TRAINED TECHNICIANS

Plaas success comes from its trained and safety driven technical staff. Over the past 40 years, at a wide variety of sites, Plaas has delivered up to 250 skilled craftsmen for industrial construction and maintenance jobs across the USA. In addition to Minnesota licensed high pressure piping journeymen, Plaas offers pipe fitters, pipe welders, millwrights, boilermakers, fabricators, insulators, plumbers and operators.

SPECIALTY SERVICES

Specialty Welding:

Plaas delivers experienced craftsman for all your welding needs. No matter the surface or situation, Plaas delivers portable welding solutions.

Quality Control Systems:

Plaas employs a full time Certified Welding Inspector able to provide Non-Destructive Examination (NDE). Plaas NDE testing services include; Visual Testing (VT), Ultrasonic Testing (UT), Liquid Penetrating Testing (LPT) and Wet-Fluorescent Magnetic Particle Testing (WFMT).

Confined Space Rescue Services:

OSHA requires Confined Space Rescue Teams (CSR) at many confined space job sites. Plaas delivers trained CSR staff and appropriate OSHA approved equipment to help manage your confined space needs.

Plaas has provided Industrial Construction and Maintenance Services for:

What Customers Are Saying About Plaas Industrial Services:

"For over 20 years Owens Corning/Trumbull has relied on the expertise of Plaas Incorporated. The Plaas team consistently delivers qualified and safe technicians who provide welding, pipefitting, plumbing and millwright work to help keep our plant running efficiently. I would recommend Plaas Incorporated services to any company looking for a safe and efficient industrial contractor."

Lucille Pomerleau, Minneapolis Asphalt Plant Leader, Owens Corning/Trumbull

"Archer Daniels Midland Company (ADM) has used Plaas Incorporated to provide qualified and licensed pipefitters, electricians, welders and millwrights for projects at our facility in Red Wing, MN for more than 30 years. Safety is of critical importance to ADM, and we appreciate that Plaas employees make safety a priority and follow our plant policies and procedures."

Dave Turner, Plant Manager, ADM-Red Wing

"Plaas Incorporated has been a preferred Highwater contractor since plant completion in 2009. Plaas has provided a variety of expertise, including installing all our high pressure piping and ammonia systems. Plaas delivered these services safely and efficiently helping us get built on-time and within budget. The safety and technical versatility of the Plaas technicians and management are reasons we will continue to call on them for industrial services."

Jon Osland, Maintenance Manager, Highwater Ethanol, LLC

"Our Fridley, MN International Paper facility has benefitted from a long term relationship with Plaas Incorporated. For over two decades, from standard process piping, to working with our steam and condensation lines, Plaas has done critical maintenance and new construction piping work at our plant. We appreciate their excellent work and look forward to continuing our relationship with Plaas in the future."

Dave Pritzl, Plant Manager, International Paper
